Old business

John Kidd reported that he spent time with Supervisor Centeno, and Joe is planning on coming out to Cuyama at the end of the month or the first part of Feb. There is a \$15 million contract for improvement on 166 through Cuyama which needs to be let before the beginning of the next fiscal year. The Rec. Dept. project is on track. There are still some problems with the ownership of some of the property. Centeno wants to wait until June for the funding to write the plan. Marty Eifrid stated that he wasn't sure we needed government funding in order to write the plan. Pedro Nava wrote a letter acknowledging receiving our letter concerning Highway 33.

Public Forum

Jan Hensley reported that the bridge over Salsbury Wash was taken down, and now the students walk through the creek bed to get to school. It was suggested she call Joe Centeno to see how that could be remedied.
